

# BUS WHERE? forSCHOOLS

## BUS COMPANIES, DISTRICTS, & SCHOOLS

**SCHOOL BUS MANAGEMENT:** BusWhere is a comprehensive solution for bus companies, districts, and schools that also provides a simple and accessible mobile app for parents. The ability to view the bus location in real time eliminates the "where's the bus" phone calls to the school.

## BENEFITS TO BUS COMPANY / DISTRICT

**VISIBILITY:** Watch the entire fleet in real-time including bus speed and location.

**LOGGING:** Logs of every route, every stop, arrival and departure times.

**ANALYTICS:** Replay any route from any day including position, speed, and timing in order to track down problems and assist in planning.

**SECURITY:** Full administrator control over which users can see the bus's location.

## BENEFITS TO PARENTS

**SECURITY:** The bus route is visible in real time on the app.

**CONTROL:** No waiting outside for the bus during bad weather or in case of unexpected breakdown or delays.

**CONVENIENCE:** Get a text message when the bus is a few minutes away.

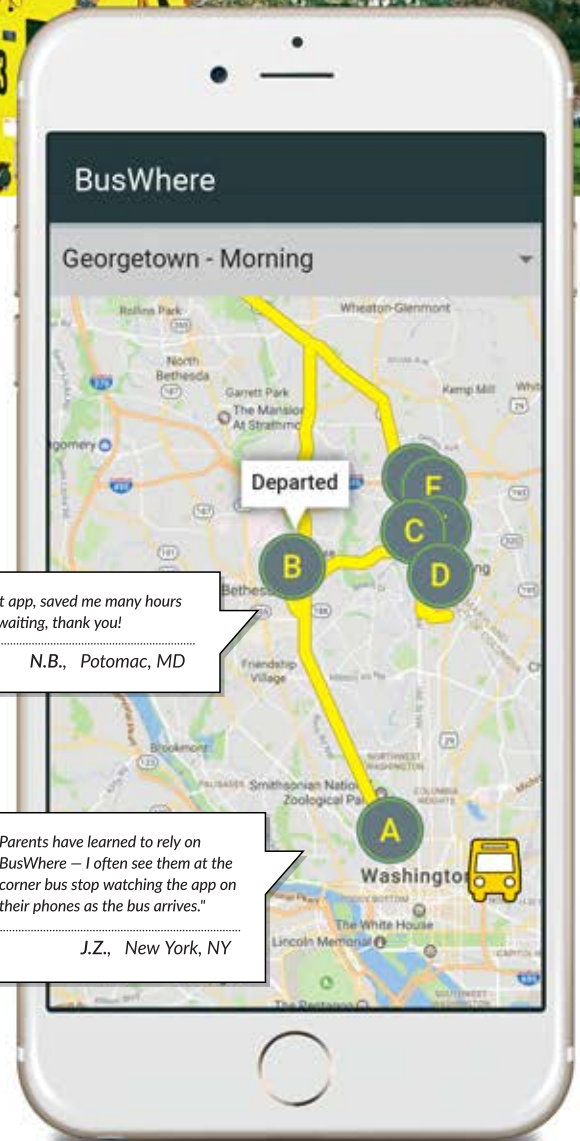

## BUS & ROUTE SETUP IN <1 HOUR

Hardware is portable and requires no hard-wiring.

Moveable in case of a bus breakdown.

Easy-to-use portal lets you add or change routes in just a few minutes.

*BusWhere can also integrate with your existing GPS system – contact us for more information.*

*Brilliant app, saved me many hours of bus waiting, thank you!*  
N.B., Potomac, MD

*Parents have learned to rely on BusWhere – I often see them at the corner bus stop watching the app on their phones as the bus arrives.*  
J.Z., New York, NY

## BUSWHERE ELIGIBILITY PORTAL

BusWhere offers an eligibility determination program to bus companies or districts. This portal allows parents to input their address and receive a determination if their child is eligible to receive bus service according to the laws of the state they reside in. If the child is eligible, then the nearest bus stop is shown on screen.

The Portal is an add on to the regular BusWhere app program or can be used independently.
